About McKay Radio Accessories

McKay Associates design, manufacture and market a complete range of audio accessories for all two-way radio platforms. We focus exclusively on these products. We do not market radios, batteries etc. and our focus is on being global leaders in this segment of the market.

All of our products are designed and engineered at our corporate headquarters based in Wollongong on the east coast of Australia. We design our products using the best available engineering practices and ensure we source the best available components from many countries including, Australia, Japan, Sweden, Taiwan, U.S.A and the U.K. Final assembly of products are either done at our Wollongong premises or in China with our exclusive manufacturing partner using only the best materials and components available globally using certified ISO 9001 practices.

Our aim is to offer robust, cost effective products that are designed specifically to meet the needs of our global users. We spend considerable time and effort in understanding the needs of our user markets and seek to meet these needs completely.

This catalogue showcases our wide range of standard products that have been designed to meet the needs of our commercial, industrial, public safety and military clients.

We also manufacture accessories to meet specialist needs where they are required and also manufacture specific products for OEM customers.

If you have a requirement for accessories that our standard product range does not cover, our sales and engineering staff would be happy to discuss these requirements with you and to design and manufacture custom accessories specific to your needs.

We hope that you find the products within these pages meet your requirements. We would encourage you to comment on our products and service as we rely on feedback from our clients and users to enable us to continually improve the products and service we offer. We don't just talk about customer focus; we try very hard to ensure that our staff and distributors understand the importance of achieving this. Our aim is to really understand custom needs and to provide cost-effective solutions to those needs.

McKay Warranty

McKay continues to pride itself on producing great quality audio accessories for the two way radio user. Our past experience has given us the confidence to offer a 24 month warranty period for all of the products in our range.

It is imperative that a faulty product be returned to McKay for inspection of the fault. This enables our Engineering and Technical team to redesign and/or identify any faults that may be apparent with raw materials.

McKay Associates Pty. Ltd. makes the following warranty to purchasers of McKay's products who buy direct from McKay and from McKay's authorized distributors. McKay warrants that for a period of 24 months from the date of purchase, its products will meet the nominal performance criteria stated in McKay's printed publications and proposals and will be free from defects in material and workmanship. If a warranty claim is properly submitted, McKay will inspect the McKay product at McKay's facility and will repair or replace, at McKay's sole option, if the product is defective. This warranty is voided if any repair or replacement is made or attempted on any McKay product by anyone other than authorized McKay personnel at McKay's facility without prior written consent, if the product has been altered by the customer, or if there has been any misuse or misapplication of the McKay product, McKay's only liability under its warranty is stated above.

McKay makes no warranty (1) to anyone who purchases or acquires any McKay product from any source other than McKay or its authorized distributors, (2) to anyone who purchases, acquires or uses any other manufacturer's product in which any McKay product is a component, (3) or any other manufacturer's products as a component in any McKay product. McKay shall not be liable for any incidental or consequential damage caused by the nonconformance of any McKay product with this warranty.

THERE ARE NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Return Procedure

To return product to McKay Associates Pty. Ltd., please follow the steps below:

- a. Ship the product, with your original sales receipt, marked "Service Department", to one of our Authorized service centers; or place at purchase.
- b. Warranty repairs or replacements will be returned via ground freight at McKay's expense.

Dealer Pre-Testing of Equipment

We strongly recommend that all Dealers test customer product before returning to McKay. If McKay Quality Technicians are unable to duplicate or determine the stated failure mode, the product will be returned to the dealer.

Warranty vs. Non-Warranty

If the failure mode is determined to be a warranty issue (due to materials, workmanship or failure to meet printed specifications), the product will be replaced at no charge. If the failure mode is determined to be a non-warranty issue, the parts will be returned to the customer along with a Failure Analysis Report. At McKay Associates' discretion, minor rework may be performed after contact is made with the customer to ensure an understanding of how the failure occurred.

Repair Service

McKay Associates provides repair services for selected products. Contact us for further information. Several replacement part options are available which will allow your technician to repair your unit, avoiding the purchase of a new unit.
